

# HEAVY DUTY SPREADER BAR

A Star Industries spreader bar for cranes or forklifts is the perfect solution for handling long and awkward material that tends to bend. It's great for handling rebar cages as well as beams, trusses, metal roofing and siding.

- Choice of 4 crane spreader bar options and 7 forklift spreader bar options
- Use with rough terrain forklifts, either straight mast or extendable reach that accept forks 7" wide x 2 1/2" thick.
- A center hole provides a hook point that allows the spreader bar to be suspended from a crane.
