

EXTREME DUTY SKID-STEER BUCKETS

The Star Industries Extreme Duty Skid Steer Bucket is the market's toughest bucket and built to last. It's constructed with an extra 25% heavier bucket shell, AR400 heel plate and AR400 wear bars, reinforced quick-tach and an 80% heavier cutting edge to withstand the harshest of treatment.

- ➔ Choose from buckets widths of 72", 78", 84" and 96"
- ➔ 25% heavier bucket shell and 80% heavier cutting edge

PRODUCT OPTIONS

FEATURES

Scuff Bars – ½" Thick

Heal Plate – ½" AR400

Square Bottom
Permits "back dragging" to level your work. Sets close to the ground. Landscapers love it.

Seams Fully Welded
Continuous weld inside and outside of shell seams provides greater strength and longer life.

Steel Side Blades
Strengthens and protects bucket sides.

Strong Universal Quick-Tach
Constructed of 3/8" plate steel to stand up to the new more powerful skid-steer loaders.

Buckets Designed to Fit each brand of loader
Even though all new skid-steer loaders use a universal quick-tach they require different bucket profiles for proper operation. Star buckets are built to match your specific make & model of skid-steer loader.

Low Profile Design
Operator can see the leading edge from the seat. Other profiles are also available.

Strong Hat Section
Provides unyielding strength across the entire top of bucket.
